

# New Story from Philomena Acen!

Your sponsored child used a tablet equipped with the ChildFund Magic Adventure app to send you the following message:

### What would you like to share with your sponsor?

Dear Den Gronne Loge Am your friend philomena Acen writing to you for the first time. How are you and your family . Back to me and all the entire family members are fine and healthy busy doing garden work. Am happy to inform you that this year am in grade seven and hopping to join college one next year. I enjoy cowpeace and local bread made of cassava flour mixed with sorghum asmy favouritefood. During my free time I do play football with my friend called Sharon. At home we are 11 members with our mother heading as head of family. We do agriculture as source of living and we grow crops like grandnuts, cassava, potatoes and sorghum for home consumption. On the some note I would like to appreciate the project for nsp gift of sheep that I received and they are now 2 which will help me in my future studies. With those few allow me to appreciate you for choice you have made of taking me as your friend for sponsorship and hopping to hear more and see your family photos as well . You are welcome to our family May God bless you abundantly.

We have introduced the use of tablets that allow children to express themselves in fun new ways. We hope you enjoy these "stories" just as children enjoy creating them and learning about technology in the process. Write back to Philomena and keep the conversation going!
